Overview

Preface

The 2005-2006 FISAP Technical Reference provides programmer specifications and record layouts for schools or other organizations that need to design software systems to interface with the U.S. Department of Education's (ED) FISAP processor. The technical system information within this document allows you to build your own system, in order to submit FISAP data directly to ED

This technical reference provides you with a current snapshot of the system modifications for the upcoming processing year and contains the following sections:

- Overview

- Implementation Guide

- Record Layouts

- Process Edits

Keep in mind that further changes to the technical reference may occur as we proceed with implementation.

If you have any questions regarding the information contained in this document, please contact FISAP Technical Support at 877/801-7168.

Implementation Guide

Introduction

This section assists FISAP custom schools, third party servicers, and software providers with implementing system changes for the 2005-2006 FISAP cycle. These changes will enable you to create FISAP data files for submission directly to the FISAP processing mailbox. This guide provides:

- 2005-2006 Modifications at a Glance

- Uploading in the File Management Section

- Batch Edit/Reject Codes

- What Each Message Means

- How to Fix Each Error

Keep in mind that further changes to the technical reference may occur as we proceed with implementation.

If you have questions regarding the material in this document, please call FISAP Technical Support between the hours of 8 a.m. and 8 p.m. (ET) at 877/801-7168.

2005-2006 Modifications at a Glance

The record length of the FISAP data file has increased to 4010 for the 2005-2006 FISAP.

Current Year Record changes:

The following fields and field names were added to the current year record layout and correspond to additional lines on the FISAP form:
Field 223 and 224 both new, total principal and interest collected for loans in default 2-5 years old.

For Fields 71, 72, 73, 74 , the field length is changed to 10 instead of 9.

Header and trailer, Branch Campus, additional information, prior year data, and edit error code records were removed.

Name and address fields were increased in length to match PEPS name and address field lengths:

Field 3, length changed from 55 to 70.	Field 11, length changed from 30 to 35.
Field 4, length changed from 30 to 35.	Field 12, length changed from 23 to 25.

Uploading to the File Management Section

The file management function allows schools to upload a file to the eCB web site. This process will greatly reduce keying errors for those schools that are able to extract data from their data systems. The file used for the upload must follow the format described in the FCUR05IN data file. A single file upload can contain multiple records, and any file name can be used for that upload file.

To access the file management function, select/change to the school you wish to upload, select Setup from the top menu, Select File Management, Enter complete file name with drive and directory path. Select upload file. The system will inform the user if the process was successful. If it was, continue with the next school. Data errors will cause the upload to fail, if you should encounter please recheck the contents of each field and ensure that it follows that criteria outlined in the FISAP Technical Reference. If you continue having problems, please contact the Campus-Based Call Center at 1877-801-7168 for assistance.

Batch Edit/Reject Codes

Edit Code	Message	What It Means	How to Fix it
101	Missing 01 Record	The data record received has no valid Record Type 01 – Current/Edit FISAP File.	Recreate batch to include a valid 01 record.
102	Missing OPEID Number in Current/Edit FISAP File record (Record Type 01)	Campus-Based OPEID Number in Record Type 01 is missing or non-numeric.	Resubmit batch with valid Campus-Based OPEID Number. Campus-Based OPEID Numbers are 10 digits with the first 2 digits as 00.
103	OPEID number does not match in 01 Record	The OPEID number in the 01 record does not match (based on Campus-Based records).	Verify the correct OPEID number. Call FISAP Technical Support at 877/801-7168 to verify OPEID if unable to correct problem.
104	Invalid Record Type	Batch contains a record with an invalid or missing record type. 01 is a valid record type.	Resubmit batch with all records assigned a valid record type.
115	Invalid Record Type	Batch contains a record with an invalid or missing record type	Resubmit batch with all records assigned a valid record type. Valid record type is 01.
